

# Ibix translate

## Reassurance and information messages for victim and witness care in a range of languages

Enables effective and rapid communication of essential information before full interpretation service is available.

Pre-recorded voice files, available on an MP3 player.

Supports good relations with migrant communities and effective neighbourhood policing.

Specialists in the languages of accession countries, asylum and other migrant communities.

Messages are currently available for UKHTC related operations. Messages on car and knife crime are in development. Other bespoke products available by request. Messages developed in consultation with the CPS.

**Contact us for this cost effective solution for  
your communication needs.**
